Tomorrow 9/03/2024

 I will learn hasing problems

Get up early morning around 6 am

And 8-12 hashing or dsa question and after that one hour brushnup concept and logic building and rewrite the concept and create topic notes and then

One hour for my English class and speak forntof my camera

And I willabsolute fine with that changes you're your thoughts and your life cycle and its totally different from other days

In my mind also running this topic

System design or

Java

Or English or 1 hours + exercise and please rewrite all things make sure it will perfect tomorrow night and create presrntation or projects or do some college related stuff 4
